Play Garden Picture Bingo

Four player boards, twelve calling pictures.

Give two to four players a different numbered board each. Print the calling sheet once and cut its shared grid; each card is 43 x 58 mm. Leave the player boards whole.

Shuffle the twelve calling pictures face down. A caller draws one, shows it and says its name. Players mark that picture if it is on their board; otherwise they wait. Keep each called picture face up.

Three marked pictures in a straight horizontal, vertical or diagonal line win. The picture below shows a diagonal on board 1. Check all three against the called pictures. Simultaneous winners share the win.

There is no free center square. Use pencil marks or an erasable cover. Between rounds clear every mark and reshuffle all twelve calling cards.

Example: a diagonal on board 1
