Match the Toy Picture Halves

Six whole pictures; twelve pieces. Letters are answer references only.

Cut the card sheet around its outer block, then along the shared grid. Mix all twelve pieces face up. Join a left half to a right half to rebuild one toy. Align the top and bottom edges, then check the picture where the two cards meet.

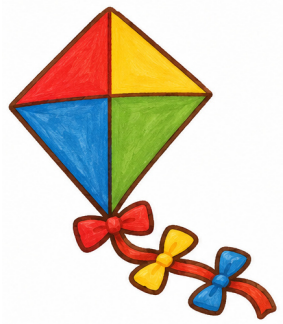

E + C

K + I

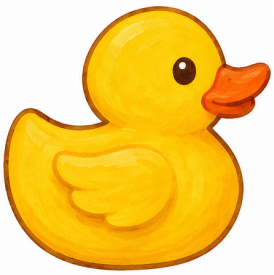

A + H

F + L

J + D

G + B

Keep this answer page aside. Start with two whole pictures, then add more pairs.
